## **I. Introduction**

### **Overview of the Safe Schools/Healthy Students Initiative**

The Adams County Safe Schools/Healthy Students Initiative, part of the Adams County Youth Initiative, is an integrated communitywide approach to create and sustain safe, respectful, drug-free schools, increase high school graduation rates, and promote pro-social skills and healthy family and childhood development. A consortium of partner agencies including school districts, law enforcement, mental health, social services, work force development, juvenile justice, and providers of early childhood services have committed to work together to improve the coordination of resources in Adams County for the purpose of promoting the health and well-being of children and families.

The Safe Schools/Healthy Students Initiative is a five-year (2007-2012), \$8 million federally-funded grant serving children birth to age 21 and their families in Mapleton Public Schools, Adams 12 Five Star Schools, Adams 14, Adams 27J, and Adams 50.

### **Evaluation and the Safe Schools/Healthy Students Initiative**

Evaluation is a critical component of the Initiative. Through a rigorous countywide assessment, it is possible to ensure that grant resources are tied to actual school needs. Furthermore, on-going annual evaluation provides evidence that activities and programs funded by the Safe Schools/Healthy Students Initiative have a significant impact on student behaviors. The Adams County Student Survey, which was administered for the first time in the fall of 2008 to all students in grades 6 through 12 in the five Adams County school districts listed above, is the primary evaluation instrument for the Safe Schools/Healthy Students Initiative. Collectively, the data from these surveys comprise a comprehensive school, district, and county assessment that will provide a baseline measure for the long-term impact of the grant activities on youth behaviors and outcomes.

### **Using the Student Survey Data to Set Priorities at the School and District Level**

The data obtained through the Adams County Student Survey are intended to be used to help school and district administrators gain a better understanding of their strengths and challenges. This report provides countywide data grouped by Grades 6-8, 9-12, and 6-12. The appendix provides a complete countywide breakdown by grade. This is the only countywide information that will be released publicly

Each school superintendent in the districts listed above received district and school level reports comparing each school to their district and to Adams County in aggregate. This information will enable schools and districts to set priorities for action based on these comparisons. The Safe Schools/Healthy Students Initiative project staff will work with school districts to assist in matching grant resources to the school needs identified through the survey. Over time, the survey data will help Adams County to prioritize which activities are worth sustaining and provide evidence of their value to potential funders.

### **School Level Reflective Questions**

The following page of reflective questions was included in each of the individual school reports. The purpose of these questions is to facilitate a discussion of the school-level data among schools' leadership and staff. Answering these questions will assist school leadership in interpreting data and prioritizing next steps. It will also assist the Safe Schools/Healthy Students project staff in providing schools with appropriate technical assistance and grant resources. After each of the individual school reports and reflective questions worksheets have been reviewed, the Adams County Youth Initiative Steering Committee School District representative (listed on the subsequent page) will provide a compilation report of recommendations to the Safe Schools/Healthy Students Project Director by April 15, 2009.

## School Level Reflective Questions - Worksheet

Please utilize the following list of reflective questions to facilitate a discussion of this report among your school's leadership and staff. Submit your responses to these questions to your districts' Adams County Youth Initiative Representative listed below. A response to these questions is **required for schools to access the grant resources for programming**. The due date for these responses will be determined by your school representative.

### Adams County Youth Initiative Steering Committee School District Representatives

Mapleton Public Schools: Mike Crawford – Director, Student Support Services

Adams 12 Five Star Schools: Kevin West – Manager, Intervention Services

Adams 14: Dawn Loge – Director, Special Education

Adams 27J: Ruth DeCrescentis – Director, Student Intervention Services

Adams 50: James Duffy – Executive Director, Student Services

1. What does the survey data say about your students?
  - a. What strengths exist in your student population?
  - b. What challenges exist in your student population?
  
2. Does the survey data confirm or conflict with other information you have about your students? Please explain.
  - a. What factors might be influencing this data?
  - b. What further information might help you to validate and/or reach stronger conclusions regarding this data?
  
3. Please list the two challenges within your student population most apparent from the survey:
  1. \_\_\_\_\_
  2. \_\_\_\_\_
  
4. What plans or programs do you already have in place to meet the above challenges in your student population?
  
5. Which of these challenges is your school most ready to make a priority?
  
6. A chart listing current resources and programming available through the Safe Schools/Healthy Students grant should have been given to your school along with this report. If you did not receive this chart with your school report, please email [nicole.bryant@adams12.org](mailto:nicole.bryant@adams12.org) to request an electronic copy. Which of these resources would MOST support your school in addressing its challenges?
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
  
7. Who else would you engage in addressing these challenges, e.g. feeder elementary schools, affiliate parent organizations, school problem-solving teams, etc.?

## **II. Methods and Survey Sample**

### **Methods**

Surveys were administered via paper Scantron forms to students in classroom settings between October and December 2008. Passive consent was obtained from parents via a letter notifying them of their child's right not to participate in the survey. All students in grades six through 12 in Mapleton Public Schools, Adams 12 Five Star Schools, Adams 14, Adams 27J, and Adams 50 were invited to participate. According to the Colorado Department of Education website, the total enrollment for 2008 for these five districts was 34,014.

A district report and all school level reports have been given to each district superintendent through their Adams County Youth Initiative Steering Committee Representative for district dissemination. *All of these reports are considered confidential by the Safe Schools/Healthy Students staff and the local evaluator and are clearly marked confidential on these documents.* The only information that will be released publicly is the countywide aggregate. It is up to the discretion of districts and schools to determine how or if their data will be released publicly.

## Response Rates and Survey Sample Characteristics

In the fall of 2008, 25,641 students completed the Adams County Student Survey in Adams County. The response rate for the county was 75%. This met the targeted 75% response rate. A high response rate is preferred in survey research in order to achieve adequate power to demonstrate changes from one year to the next and to ensure that the sample that took part in the survey is representative of the larger population that was surveyed (i.e. all students). Whether differences exist between those students who responded to the survey compared to those who did not is not known. Therefore, care must be taken in generalizing the results to the entire school population when response rates are lower than 70 to 75%.

The gender distribution of the students surveyed was:

- 49% male
- 51% female

Ninety-nine percent of the students who responded to the survey in Adams County completed the survey in English, though a Spanish version was made available.

The following charts and tables present, in more detail, the demographic makeup of the students who responded to the 2008 Adams County Student Survey.

Chart 1 shows the response rates of each of the Districts compared to Adams County.

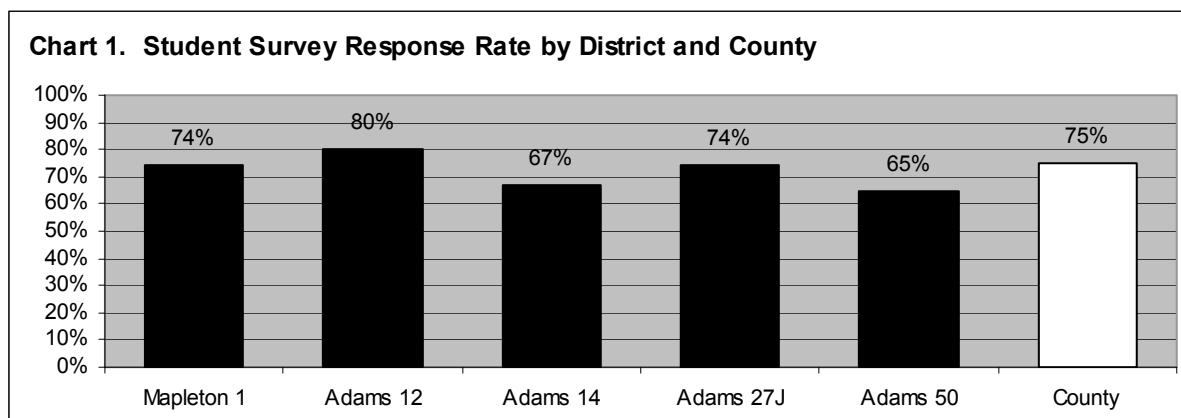

Table 1 represents the proportion of students who completed the survey in each grade level for Adams County.

Grade	# of Respondents	# of Enrolled Students	% Participation
6	4,101	5,491	75%
7	4,181	5,409	77%
8	3,958	5,302	75%
9	3,479	6,003	58%
10	3,280	5,249	62%
11	2,888	4,361	66%
12	2,455	3,850	64%

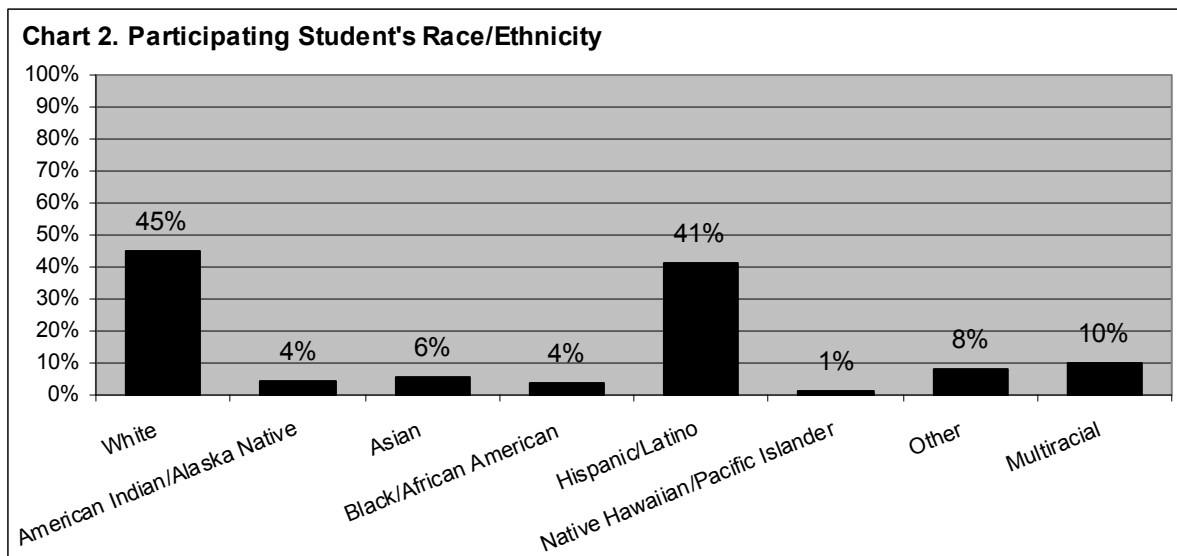

Table 2 represents the racial/ethnic background of the students who completed the survey in Adams County. Students were allowed to choose more than one category.

Race/Ethnicity	# of Students	% of Student Population*
White	11,576	45%
American Indian/Alaska Native	1,087	4%
Asian	1,414	6%
Black/African American	992	4%
Hispanic/Latino	10,555	41%
Native Hawaiian/Pacific Islander	311	1%
Other	2,123	8%
Multiracial**	2,636	10%

\* Because students could choose more than one race, the percentages do not total to 100.

\*\* Students choosing more than one race/ethnicity.

Chart 2 is a graphic representation of Table 2.

### III. Student Survey Results

#### Students' Bullying Behaviors

For many reasons, bullying is an issue at the forefront in today's schools. Left unaddressed, bullying can leave children and teenagers feeling depressed and alone. For some, the effects of bullying can last a lifetime. Victims have an increased chance of academic failure, low self-esteem and inability to connect socially. There are long-term implications for the bullies, too. Research shows that those who bully typically have a criminal record by age 24.<sup>1</sup>

Items 1 through 5 in Table 3 show the specific response of "one or more times" by the students who completed the survey regarding being a victim of bullying during the past 12 months. Item 6 shows the response of those students who responded "yes" to being the victim of a verbal slur because of their weight, size, gender, or appearance during the past 30 days.

<b><i>During the past 12 months, ...</i></b>	<b>County</b> (grades 6-8)	<b>County</b> (grades 9-12)	<b>County</b> (grades 6-12)
	<b>One or more times</b>		
1. Have you been harassed or bullied on school property?	38%	28%	33%
2. Has someone tried to hurt you by hitting, punching, or kicking you while on school property?	35%	24%	30%
3. Has a classmate said bad things about you to hurt your reputation or friendships with others?	51%	48%	49%
4. Have you been insulted or threatened by others using the internet or a cell phone?	16%	24%	20%
5. Have other students kept you from taking part in activities while at school?	21%	16%	18%
<b><i>During the past 30 days, ...</i></b>	<b>County</b> (grades 6-8)	<b>County</b> (grades 9-12)	<b>County</b> (grades 6-12)
	<b>Yes</b>		
6. Have you been a victim of a verbal slur?	31%	28%	29%

<sup>1</sup> The Colorado Trust. *Build Trust, End Bullying, Improve Learning*. December 2008.

<sup>2</sup> The table containing complete response categories for Table 3 can be found in Appendix A.

Table 4 shows the specific response of “one or more times” by the students who completed the survey regarding being a perpetrator of bullying during the past 12 months. National comparison data at the high school level is available for the following question, “Were you in a physical fight on school property?”. In 2007, the Centers for Disease Control and Prevention estimated that 12% of high school students in the United States reported being in a fight on school property.<sup>3</sup>

<b><i>During the past 12 months, ...</i></b>	<b>County</b> (grades 6-8)	<b>County</b> (grades 9-12)	<b>County</b> (grades 6-12)
	<b>One or more times</b>		
1. Have you hit, punched, or kicked someone while on school property?	31%	30%	31%
2. Have you said bad things about others to hurt their reputation or friendships?	26%	31%	28%
3. Have you insulted or threatened others using the internet or a cell phone?	7%	13%	10%
4. Have you kept other students from taking part in activities while at school?	7%	8%	8%
5. Were you in a physical fight on school property?	16%	16%	16%

<sup>3</sup> 2007 Youth Risk Behavior Surveillance System, Centers for Disease Control and Prevention. <http://www.cdc.gov/HealthyYouth/yrbs/trends.htm>, accessed on January 27, 2009, data for 9-12 graders.

<sup>4</sup> The table containing complete response categories for Table 4 can be found in Appendix A.

## Students' Perceptions of School Safety

Research shows a positive school climate is essential for developing a safe school. Students' perceptions of school safety are likely to be related to the school climate. Factors impacting school climate may include student involvement, student relationships, teacher support, the physical environment of the school, knowledge and fairness of school discipline policies, participation in decision-making, access to counseling services, and the school's level of emergency preparedness. In 2007, the Centers for Disease Control and Prevention estimated that 5.5% of high school students in the United States reported that they did not go to school because they felt unsafe at school or on their way to or from school.<sup>5</sup>

A safe school requires balancing physical security with a nurturing school climate, as well as developing effective school and community partnerships.<sup>6</sup> The countywide partnerships created through the Adams County Youth Initiative and the Safe Schools/Healthy Students Initiative are intended to support schools in this effort.

Table 5 reflects data specifically about students' perceptions of school safety.

	<b>County</b> (grades 6-8)	<b>County</b> (grades 9-12)	<b>County</b> (grades 6-12)
	<b>Agree<sup>8</sup></b>		
1. I feel safe at my school.	85%	85%	85%
2. I feel safe on my way to and from school.	86%	88%	87%
	<b>One or more days</b>		
3. How many days did you not go to school because you felt unsafe?	10%	10%	10%

<sup>5</sup> 2007 Youth Risk Behavior Surveillance System, Centers for Disease Control and Prevention.

<sup>6</sup> What is a Safe School? Safe Communities ~ Safe Schools Fact Sheet 2000, 2008. [www.colorado.edu/cspv](http://www.colorado.edu/cspv)

<sup>7</sup> The table containing complete response categories can be found in Appendix A.

<sup>8</sup> The response choices of "Strongly Agree" and "Agree" were collapsed into one category, "Agree", for reporting purposes. The table containing complete response categories can be found in Appendix A.

## Gang Involvement

Gang activity has been identified as a growing issue in Adams County and in the State of Colorado. One-fifth of all metro Denver Youthful Offender System admissions were from Adams County in 2004.<sup>9</sup> According to the Colorado Department of Corrections, there were 5,056 gang members in Colorado prisons in 2000 and 8,373 in 2006. This dramatic increase underscores the need to provide at-risk children with alternatives to gang involvement. To better understand the prevalence of gangs within Adams County, the Student Survey provides three self-report measures relating to youths' perceptions of gangs.

Table 6 reflects the percentage of students who answered "Yes" to the questions regarding gang involvement.

	County (grades 6-8)	County (grades 9-12)	County (grades 6-12)
	<b>Yes</b>		
1. Are there any gangs in your school?	22%	40%	31%
2. I currently belong to a gang.	4%	8%	6%
3. I have been pressured to join a gang.	8%	8%	8%

<sup>9</sup> Simpson, K., & Mofiet, M. (2006). Door Shut on Throwaways. *The Denver Post*.

<sup>10</sup> The table with complete response categories can be found in Appendix A.

## Weapons

Student weapon carrying provides another important indicator that is likely to impact school safety. Students carrying weapons on school property may cause physical injury and death among students and school staff. Additionally, the learning environment within schools is interrupted if there is confirmed or suspected carrying of weapons by students. In 2007, the Centers for Disease Control and Prevention estimated that 5.9% of high school students in the United States reported carrying a weapon such as a gun, knife or club on school property.<sup>11</sup>

Table 7 refers to experiences with weapons in the past 30 days by students completing the survey. Percentages reflect the number of students who answered “at least one day” to the questions.<sup>12</sup>

During the past 30 days, did you...	County (grades 6-8)	County (grades 9-12)	County (grades 6-12)
	At least one day		
1. Carry a weapon such as a gun, knife, or club?	9%	12%	11%
2. Carry a gun?	3%	5%	4%
3. Carry a weapon such as a gun, knife, or club <b>on school property?</b>	3%	5%	4%

<sup>11</sup> 2007 Youth Risk Behavior Surveillance System, Centers for Disease Control and Prevention. <http://www.cdc.gov/HealthyYouth/yrbs/trends.htm>, accessed on January 27, 2009, data for 9-12 graders.

<sup>13</sup> The table with complete response categories can be found in Appendix A.

## Substance Use

In 2007, the Centers for Disease Control and Prevention found that 45% of high school students nationwide had at least one drink in the past 30 days and 20% used marijuana in the past 30 days.<sup>14</sup> Implementing evidence-based programs and strategies to target the major social and psychological factors that promote the initiation of substance use and other risky behaviors is critical to reducing the risks of alcohol, tobacco, and drug abuse.

Table 8 refers to substance use in the past 30 days by students who completed the survey. Percentages reflect the number of students who answered “at least one day” to the questions.

<i>During the past 30 days, did you...</i>	County (grades 6-8)	County (grades 9-12)	County (grades 6-12)
	<b>At least one day</b>		
1. Smoke cigarettes?	5%	19%	12%
2. Have at least one drink of alcohol?	12%	33%	22%
3. Use marijuana?	5%	19%	12%
4. Take a prescription drug?	4%	10%	7%
5. Use methamphetamines?	1%	3%	2%

<sup>14</sup> 2007 Youth Risk Behavior Surveillance System, Centers for Disease Control and Prevention. <http://www.cdc.gov/HealthyYouth/yrbs/trends.htm>, accessed on January 27, 2009, data for 9-12 graders.

<sup>15</sup> The table with complete response categories can be found in Appendix A.

## Youth Civic Engagement and After School Opportunities

Increasing opportunities for civic engagement and participation in after school activities are important strategies for helping youth to acquire the skills, attitudes, and values that will propel them forward into academic achievement and a productive adult life. Youth who participate in community or civic engagement projects are more likely to be engaged in school and to have higher goals for postsecondary education. They are also more likely to become essential contributors to the civic infrastructure of their community.

High-quality after school and summer programming stimulates positive youth development by providing enriching social, physical, and intellectual activities. After school programs impact student safety, social skills, engagement in learning, and higher academic performance. Recent research from Johns Hopkins University shows that two-thirds of the achievement gap in reading can be attributed solely to unequal summer learning opportunities.<sup>16</sup> The Safe Schools/Healthy Students Initiative aims to design and implement a comprehensive system of opportunities for youth in Adams County to be actively engaged in their community.

Table 9 reflects data specifically about students' experiences with civic engagement and after school opportunities.

	County (grades 6-8)	County (grades 9-12)	County (grades 6-12)
	<b>Yes</b>		
1. Have you ever worked together with someone or some group to solve a problem in the community where you live?	44%	45%	44%
2. Have you volunteered or done any voluntary community service for no pay?	48%	62%	55%
<b>One or more occasions</b>			
3. During the past 30 days, how many times did you perform any organized community service as a non-paid volunteer?	37%	33%	35%
<b>0 hours</b>			
4. During an average week when you are in school, how many hours do you spend in clubs or organizations (other than sports) outside of school?	71%	72%	72%
<b>Yes</b>			
5. Do you participate in any extracurricular activities at school such as sports, band, drama, clubs or student government?	63%	57%	60%

<sup>16</sup> Alexander, K., Entwisle, D. Olson, L. (2007). Lasting Consequences of the Summer Learning Gap. *American Sociological Review*, 72, 167-180.

<sup>17</sup> The table with complete response categories can be found in Appendix A.

## Student Physical Activity

Over the past thirty years, the prevalence of overweight has doubled among preschool-aged children and adolescents and tripled among children aged 6 to 11. Childhood obesity is the top health problem facing children in the United States. Causes of this epidemic include decreased levels of physical activity, increasingly sedentary lifestyles, and poor eating habits. According to the 2008 Physical Activity Guidelines for Americans, children and adolescents should do 1 hour or more of physical activity every day.

Table 10 reflects the percentage of students who are physically active.

<b>On how many of the past 7 days did you exercise or participate in physical activity for at least 20 minutes...?</b>	<b>County* (grades 6-8)</b>	<b>County* (grades 9-12)</b>	<b>County* (grades 6-12)</b>
1. 0 days	12%	15%	13%
2. 1 to 2 days	17%	17%	17%
3. 3 or more days	71%	68%	71%

*\*When totaled, the percentage may not equal 100% due to rounding.*

<sup>18</sup> The table with complete response categories can be found in Appendix A.
